

Bank Robbery 101

By Lloyd Hawes

In his role as an FBI agent, Sam Barry infiltrates suspected bank robbing gangs, and sets them up for the fall. While White Collar crime grabs most of the headlines, the rate of good old-fashioned bank robberies have risen in the past few years. And, Special Agent Barry's job is to try and bring that rate down.

All well and good, except Sam Barry is suffering from a case of disillusionment, which is only increased when he uncovers corruption in the Bureau. Someone is "redirecting" the evidence from his arrests. How does he find out who is that person without blowing his cover?

Enter Treasury Agent Emilee Sulkowski. She is on the trail of the missing money from arrested bank robbers. She believes Sam is the person responsible as she complicates Sam's life even further in her pursuit of the truth.

Sam infiltrates another gang, which doesn't act like any gang of bank robbers he's infiltrated before. He finds, he becomes enamored with this latest band of misfits.

Sam pursues a 'mole' in the Bureau, while avoiding being tagged himself, while trying to keep his cover with an incompetent gang of bank robbers whom seem to avoid arrest by sheer luck.

No one is as they seem in this caper, as Sam tries to unravel the knots of deception. Will he succeed? But, more importantly, will he win the girl?
